

Create your own dolphin!

- 1** Cut out the shapes along the dotted lines
- 2** On a separate sheet of paper, arrange the shapes in the correct position so that they form a dolphin
- 3** Use glue to paste the pieces in place. Use crayons to colour in your dolphin.

Fun idea

On a separate page, create an under-the-sea picture for your dolphin to swim through! Use crayons or paint for your picture and attach your dolphin with glue.
